

The Telephone Consumer Protection Act is the best piece of legislation that actually affects most citizens to come out of Washington in a long. The bothersome calls have dwindled to a few charities that, quite frankly, I'd like to see stopped as well. I am a tax paying adult with average intelligence making an average income, and I think I can figure out how to get in touch with a charity if I desire to contribute. Just like I know where to go and who to contact when I wish to purchase goods and services.
